

July 2007

To whom it may concern:

I have known Steve Wilson for over 10 years as he has served in the flexographic packaging industry. Steve has provided excellent customer service by providing knowledge and expertise in printing capabilities. Throughout the years, he has given valuable training seminars. He has always been willing to accommodate my company's needs and recommend new innovations. Creative Carton is known for its on-time performance and Steve through his efforts has helped Creative in making that possible by responding in a timely manner and by being adaptable. Steve is very personable, warm and sincere and it has been a pleasure to work with him. He would be an asset to any organization.

Sincerely,

Tammy Martin
Flexography Project Manager
Creative Carton
